DISCLAIMER:
 The Master Plan of Trails is not a map of existing trails that are open to public use. It is a policy map of proposed trail alignments that may be constructed in conjunction with future development proposals. The proposed trail alignments are not intended to be precise. The best and most feasible trail alignment will be determined when development proposals are submitted, further site-specific studies are conducted, and the trail connectivity needs of these development proposals are determined. When a precise trail alignment is determined in conjunction with a development proposal, a Plan Amendment will not be required if the precise trail alignment varies from the proposed trail alignment shown on the Master Plan of Trails.
