Los Angeles

**DESCRIPTION:** The ranch was originally built in the 1920s as a retreat for pioneering automotive engineer Harry Miller. Following Miller's bankruptcy, new owners ran Lake Enchanto amusement park here until 1955. Disneyland opened, and the property fell into disrepair until purchased and restored by actor Peter Strauss in the late 1970s. He later sold the land to preserve the site's natural and cultural history. Peter Strauss Ranch Loop Trail is a unique experience, passing through oak woodland habitat, while intersecting with historic structures from the early and mid-twentieth century.

**DIRECTIONS:** From the 101, exit at Kanan Rd. Turn left onto Troutdale and left onto Mulholland. Travel 300 feet and turn right into the main parking lot. Walk over the bridge. Trail access will be near the aviary or east of the terrazo dance floor.

## SAFETY FIRST

In case of **EMERGENCY** dial 911.

For non-emergencies on County trails call the Los Angeles County Sheriff's Parks Bureau Dispatch at (800) 834-0064.

## HAZARDS ON THE TRAIL

Rattlesnakes occasionally sun themselves in the middle of the trail. If encountered, keep your distance and allow space for the snake to retreat.

Poison oak can be identified by groups of 3 leaves going up the branch. It's best avoided by staying on the trail and wearing long pants and long-sleeved shirts to prevent contact with skin.

Ticks are most often found in shaded, grassy areas off the beaten path. Stick to established trails and wear long pants to avoid contact. Check for ticks frequently, especially the scalp, waist and other dark places where they can hide.

## SHARE THE TRAIL

When trail conditions require a right of way for safe passage, **equestrian users have the primary right of way, hikers next and then mountain bikers**. When trail conditions allow and when there is width to safely pass, common courtesy should prevail for all users. Stand to one side of the trail and allow them to pass. When in a group, avoid blocking the trail. **Mountain bikers yield to all trail users**. Anticipate other trail users as you ride around corners. Mountain bikers traveling downhill must yield to all users, including other mountain bikers, headed uphill. In general, make each pass a safe and courteous one.
